VISITS THE FAMOUS MAYO CLINIC AT ROCHESTER, MINN.

Dr. Thomson and Daughter Are Also Entertained by Relatives in Missouri; Stop at Grand Canyon.

Dr. A. M. Thomson and daughter Celia returned to Sonoma Wednesday evening after a two months' trip in the middle western states. The doctor went primarily to visit the famous clinic of the Mayo Bros. in Rochester, Minnesota, where he spent some time inspecting and studying some of the wonderful work which the physicians and surgeons of that institution conduct in their treatment of the thousands of patients there. Over 60,000 people are treated every year in the seven hospitals, which are a part of the wonderful medical organization. The buildings, equipment and endowment of the clinic represent an investment of \$10,000,000. There are 262 doctors on the professional staff and over 200 assistants. Sixteen hundred beds are provided for the patients and 1500 nurses are in the service.

Practicing physicians from anywhere in the world are welcome to attend the clinic as visiting guests and are able to observe the latest methods of treating every malady in which they are interested. The clinic is concerned with examination, diagnosis and recommendation for treatment. Patients are then sent to some one of the seven hospitals in connection where the professional staffs of the clinic are available, for treatment or operation. Dr. Thomson observed many wonderful operations which were scheduled for the visiting doctors and on which they were permitted to get data. He had the honor of consulting in the operating rooms with prominent medics like Dr. Van Piquet of Vienna and Dr. Balfour, Dr. H. and Will Mayo and other members of the big Mayo staff. A post-graduate course of three years is offered medical graduates of high rating at the Mayo college which is now connected with the University of Minnesota. A special research department for all new discoveries in medical science and surgery is maintained.

Dr. Thomson despite recreation at the Golf Club at Excelsior Springs, took on 15 pounds weight while away. Miss Celia Thomson also is looking exceedingly well after her trip and declares that Missouri folks live high with chicken and hot bread daily. She was entertained at many nice affairs and says the people are most courteous and hospitable to strangers.

The doctor brought back some nice relics for the Sonoma museum and relic display maintained at the old Vallejo home. Among the Thomson family relics is a spinning wheel, tomahawk used in an Indian battle in pioneer days, and a pistol, formerly the property of Jesse James, notorious out-law.

While in Nebraska, Dr. Thomson called on Dr. Lynn MacQuiddy, who is practicing physician and a teacher in the University of Nebraska.

Enroute home the Thomsons visited the Grand Canyon.

Mrs. Abele will entertain the Flying Needle next Wednesday at her home on Broadway.

Much Interest Is Shown In The P. T. A.

Leading Men and Women of Community Appointed to Important Committee Work.

The Sonoma Parent-Teachers Association had a very interesting meeting last week and chose important committee heads for proposed work the coming year.

The meeting is reported as follows by President George Crowe, of the Association:

The meeting of the Parent-Teachers Association on Friday evening of last week at the high school was one of the most interesting sessions in the history of the organization.

J. D. Ehlers, connected with the Sonoma State Home, was the principal speaker of the evening and his address on "The Influence of Motion Pictures on the Youth of Today" was greatly appreciated by those present. Mr. Ehlers related several incidents that had come under his personal observation in juvenile probation work, in which boys had developed criminal tendencies through witnessing gun play and crimes depicted on the motion picture screen.

It was decided to observe Music and Educational Week with appropriate programs and Friday night, November 2nd, was the date set for the Music Week program under the direction of Lyle Campbell. The Sonoma Park Band was invited to play and a number of soloists appeared on the program, which was greatly enjoyed by an appreciative audience.

Educational Night is Friday, November 23rd, on which occasion a reception will be given the high school faculty.

During the business session reports of committees were made and the following chairmen were appointed:

Education, Professor L. H. Golton. Patriotism, Mrs. S. Bosserman. Legislation, J. D. Ehlers. Child Hygiene, Mrs. R. E. Murphy. Juvenile Court and Probation, Mrs. J. H. Murray.

Country Life and Good Roads, C. W. Peck.

Emblem and Magazine, Mrs. J. Fox.

Thrift, Ralph Murphy.

Membership, Mrs. Katherine Noyes.

Glen Ellen District, Mrs. J. D. Ehlers.

El Verano District, W. W. Hall.

Home Department, Mrs. Perle Hunter.

Parliamentarian, A. Froment.

Mrs. Ralph E. Murphy was elected corresponding secretary by unanimous vote.

Many new members were added to the roll, as follows:

Mr. and Mrs. Oscar Lund, Mrs. W. D. Rambo, Mrs. T. H. Corcoran, Mrs. D. Moskowitz, Mr. and Mrs. A. E. Davis, H. A. Raffetta, Mrs. A. Anthenian, Mrs. M. Rouquie and Lyle Campbell.

At the close of the meeting the members adjourned to the auditorium where the young folks were enjoying a social dance, and for 15 minutes a lively community sing was enjoyed by parents, teachers and students.

After the singing a motion picture showing the Hawaiian National Park and an active volcano was exhibited.

About 100 were present.

Sonoma Has Many Advantages To Offer Producers of Motion Pictures

Once more interest has been revived in the proposal to interest moving picture producers in the advantages the Valley of the Moon has to offer the film world. Some years ago there was agitation along the same lines but nothing came of it although realization was strong that Sonoma Valley has incomparable advantages for the production of pictures. In addition to the natural advantages everywhere evident at that time, Sonoma has in 1923 the added possibilities of a newly built home for just such an industry—the defunct, Coney Island, with its 50 or 60 thousand dollars worth of buildings, beautiful wooded acreage, bungalows along picturesque Sonoma creek, a made-to-order moving picture colony in the heart of the Valley of the Moon. Nearby are the famed Springs with their swimming tanks, the big stone hotel at Agua Caliente with its arched portico, the gardens and fountains of Fettes, the Golf and Country Club, the near by hills, now rich with autumn foliage, the fields, orchards and vineyards—the land of sunshine, fruit and flowers.

The land Jack London discovered in his immortal Valley of the Moon we offer, a background which cannot be equaled in Europe or America. Close by are wonderful vistas, placid waters and rugged streams. Take your film men over the stately Spreckels estate, let them marvel at the valley from the Jack London ranch, Glen Ellen, let them revel in the beauties of the Bennett Valley road, Point out Mt. Hood, show them the canyon of Agua Caliente and its granite rim, Nunn's Canyon for their stage hold-up scenes, Rhine Farm for old world setting, the Millerick ranch for the wild and woolly west, the Mission church an picturesque adobe! Your movie magnates will say, "Eureka!" We have found it.

What is more, there are many people available for big productions within a radius of a few miles and since the Mission Play we have a nucleus of well trained "actorines" marshaled by that famed manager Garnet

Holme. Three hundred people in the wedding scene at the Mission Play learned to walk up stage and take orders and move about with poise and freedom, and we're all rearing to go into the movies, rearing since the days the Bessie Love company was here, and then we were green.

Stop to think of the carloads of Sonoma Valley horses that the Mill-ericks and Hazen Cowan took down for a recent big photo production in Southern California and you have another item in favor of Sonoma as a film land ideal.

Town characters, with and without make-up, we have them too! Where in all the studios of the country could you dig up constables like our own Jim Albertson, where could you find a kindlier, true type pioneer American than the senior Studley, another Pel-letier or a better vineyardist than old Clement? Where another Bill Ping? These good people are just a fraction of those who lend character and personality and interest to our Valley of the Moon.

The Sonoma Business Men's Association will take up the project at its next meeting so the president assured Messrs Maier and Smith of Boyes Springs after they had addressed them Monday night on the great possibilities of the moving picture business for our Valley.

Mr. Maier offered the following clipping from a Sonoma paper to prove what the production of pictures means to other California communities:

"The 65 members of the Lasky Famous Players Co., who have been in this county for several weeks past have completed their work here and left Sonoma Wednesday.

That filming pictures is an expensive business can be seen by the fact that the company spent over \$40,000 while here not including salaries. The parade which they had in the early part of their stay cost \$900.

Wm. S. Hart and company of 35 people are now in Sonoma for a couple of weeks stay.

The Tom Mix Co., of 39 is expected to arrive this week."

SAM LEWIS SELLS HIS MEAT MARKET

Sam Lewis has sold out his meat market in the Clewe block to DeMartini brothers who will open an up-to-date shop as soon as suitable repairs and alterations can be made to the building.

Mr. Lewis has conducted the business for many years and was formerly in partnership with Walter Gaige and later with M. E. Cummings, now of Healdsburg.

The new owners are popular young men of Sonoma and have worked in various meat markets, including the Maffei market. They plan to put in additional fixtures and to make the Sonoma Market one which will draw their share of the town and valley patronage.

HALLOWE'EN WAS WELL OBSERVED

Sonoma observed Halloween with several nice affairs Wednesday evening. From 5 to 7 p. m. there was a children's party at the Clewe home, enjoyed by many little folks. Later the Grammar school had a big costume party which was put on by the seventh and eighth grade pupils in the auditorium. Maxwell Johnson and Lenora Clements were prize winners. Up town the Sonoma Park Band gave a fine out-of-door concert beginning at 8 o'clock. The program was excellent and was attended by a large number of music lovers.

Rev. Henry Waltz was called from the south this week on business connected with his ranch. He arranged to have Mr. Tracy again take the place.

Wedding Of Young Couple Is Solemnized

Miss Flora Benedetto Became Bride of Daniel Kennell, Jr., Last Sunday at St. Francis Church.

Last Sunday afternoon in the presence of many friends and relatives, Miss Flora Benedetto, eldest daughter of Mr. and Mrs. John Benedetto of Boyes Springs, was married to Daniel Kennell, Jr., at St. Francis church. The church altars were tastefully decorated with seasonal flowers and candles gleamed for the happy, though solemn ceremony which was to unite the two young lives.

The wedding party entered the church promptly at 2:30. The bride radiant in a beautifully pearl-embroidered robe of white crepe de chine wore a veil caught up with a strand of pearls and was attended by the little page, Mike Cantina, in black velvet; her flower girl, Louise Kennell, who wore white with a wreath of flowers; the train bearer, dainty Janie Evans of Santa Rosa, niece of the groom; the bridesmaids, and the maid of honor, Miss Sabina Sebastiani, who was costumed in pale green crepe with panel of georgette on which were motifs of rare lace and tiny flowers. The bridesmaids, Misses Margaret and Marie Benedetto, sisters of the bride, and Miss Flora Guranto, a cousin, looked charming in crepe de chine gowns of orchid, ashes or roses and gold. They carried bouquets of roses.

To the strains of Mendelssohn's wedding march, the bride and attendants proceeded up the church aisle, joining the groom and his best man, George DeMartini, before the altar, where Rev. Father Costa awaited them. The impressively beautiful Catholic ceremony was performed by the priest, who blessed the ring and pronounced the happy young couple man and wife.

Following the ceremony the wedding party left the church in the Sebastiani limousine for Oak Grove where 150 invited guests gathered to congratulate bride and groom and to partake of an elaborate banquet. Decorated tables were set in the open air dining room and here the delicious full course chicken dinner was served. Between courses, Harry Prince, the entertainer, sang several of his popular successes, there were toasts, and speeches, and repartee by the guests and relatives. Miss Cantina sang two songs, one in English and the other in Italian; F. Stuermer rendered several splendid selections; George Angove sang and there was many other clever contributions to the joyous party arranged by the newlyweds. Following the banquet there was dancing in the big pavilion, a three piece orchestra furnishing the music. A buffet supper was served during the evening.

At a late hour Mr. Kennell and his bride departed for San Rafael, going from there to San Francisco from which city they left on their honeymoon to New York. They were the recipients of many beautiful wedding presents.

Mr. and Mrs. N. Pearson and son, Irving, motored up from San Francisco to spend the week end here. Mrs. Pearson is the eldest daughter of the Thompsons.

SONOMA VALLEY SHIPPED 204 CARS DURING SEASON

Grape Crop Was Smaller This Year Than Formerly, Owing to Unusual Conditions.

The grape crop of Sonoma Valley, consigned to outside markets, including Eastern shipments, has been less this year than formerly, due, vineyardists declare, to poor condition of many of the grapes for shipment and the little demand for white grapes.

The Madrone Vineyard and the Goldstein Vineyard both had short crops, particularly the latter, where unfavorable weather conditions played havoc with the usual fine grapes grown on this mountain acreage.

The Northwestern Pacific handled many of the grapes from Sonoma Valley points and refrigerator cars were plentiful. Shipments on this line at various stations were as follows:

Sonoma, 59 cars.
Vineburg, 60 cars.
Glen Ellen, 30 cars.
Madrone, 55 cars.

Approximately 7000 tons of grapes were shipped out of the district embraced by the Healdsburg, Lytton and Siskiyou stations. These figures are reached through the shipping records of the Northwestern Pacific, which show that 536 refrigerator cars were moved eastward from these points.

According to a well-informed local man connected with the grape industry, growers netted about \$60 a ton for grapes. Many vineyardists received less than that any some received more; the figures are based on an estimate average covering all varieties.

The Northwestern Pacific shipped out of the whole of Sonoma county during the season now ended about 1390 refrigerator cars of grapes and about 700 box car loads, according to E. S. Hall, who was car distributor for Northern California.

CHRISTENING AT THE WEISE RANCH

Donald Everett Weise, little son of Mr. and Mrs. Shirley Weise of Glen Ellen, was christened at the home of the Weises on Sunday, October 28th.

The beautiful home on the Harry Weise ranch was the scene of a happy gathering and following the christening ceremony, performed by Rev. Mr. Crowe, of the M. E. church, refreshments were served to the guests by this hospitable family.

The following were present: Mr. and Mrs. Frank Luttrell of Santa Rosa, Frederick Kerridge of Santa Rosa, Mr. and Mrs. A. B. Johnstone of San Francisco, Mr. and Mrs. W. J. Minkel of El Verano, Miss Harriett Dutton of San Francisco, Mr. and Mrs. M. P. Akers of Schellville, Miss Norvella Davidson of Berkeley, Mr. and Mrs. S. Weise and son, Mr. and Mrs. Harry Weise of Sonoma, Harold Weise of Berkeley, and Rev. and Mrs. S. E. Crowe of Sonoma.

Charles Kelly, prominent U. S. customs inspector, who has been ill, has been in a critical condition at the home of his sister in Boyes Springs.

MIRING DOWN DEEPER IN PROHIBITION

The problem of enforcing prohibition or forcing the law governing it on the American people is akin to forcing people to believe in a certain religion, or converting them. Many "devout" ones are apparently converted, but what kind of churchmen or Christians do they make? Those who are forced into something they do not believe are simon-pure hypocrites. We have them in the churches and we already have plenty in the citizenship of the United States since prohibition was written into the Constitution.

If this civic hypocrisy was confined to one class or to the masses it might not be so serious, or its eradication so impossible, but hypocrisy in prohibition is entrenched in the body politic itself and official life is surcharged with it. The highest type jurists, the ablest prosecutors, the broadest-gauge representatives, both in the Legislature and Congress, resent prohibition and at heart despise it. Their private lives do not conform to its exactions.

Change these men, President Coolidge and Governors everywhere in America. Change the opinion and the lives of countless men just like them. Change the sentiment of millions, if you please, that material for official life and enforcement may have the true ring. Perhaps then we may have successful enforcement of national prohibition in this democracy. If it is not possible to accomplish it this way, then prohibition must be fastened upon us by a calculating autocracy. The dry inquisition must be resorted to, though we annihilate the very spirit of the Constitution and squander millions in the attempt.

The latest pronouncements in the prohibition situation make us believe that America is miring deeper down in her folly instead of receding

from her impossible position and legally and temperately amending the radical law, proven impossible after four years of sickening failure.

YES, A TAX FOR THE PLAZA

We believe that despite high taxes and a growing belief that the people of California have been taxed to death that a special tax for Sonoma's Plaza beautification would be very popular and win by a big margin if submitted at an election. A special park fund is needed in Sonoma and is the only way we will ever acquire the improvements so much to be desired for our eight-acre square.

A pretty park will be the nucleus of a bigger and better Sonoma and the sooner we provide funds to assure it the quicker Sonoma City will come into its own.

The Index-Tribune commends the City Trustees on the move to give our municipality this improvement and will do everything possible to cooperate.

A WORKING CONGRESSMAN

Congressman Lea is a hard working man. He was supposed to have a vacation while in California, but has answered so many calls to speak on various questions of importance throughout his big Congressional district that he has hardly had a minute to himself. A conscientious Congressman's existence is more strenuous than a President's. Lea is maintaining the public pace described by Lloyd George as "killing."

The demands and exactions of constituents in America are unfair. Congressman Lea owes it to himself to be "fit" when he goes back to Washington and plunges into big problems. Regardless of how he feels, he can be

depended upon to actively represent his district. He is known in Washington as one of the hardest-working Congressmen, which will undoubtedly commend him to President Coolidge.

DRUG ADDICTS SPREAD PROPAGANDA

Every few days some woman drug addict hauled into a San Francisco court tries to excuse her succumbing to the dope habit by telling the Judge she was cured at the Buena Vista farm for Delinquents, but went back to the old life.

A recent case recites that the woman had been in the institution for ten months and claimed to have been cured, but when the Farm was discontinued she again fell into the clutches of the dope.

These claims raise the question how long the State would have to support the drug fiends in order to keep them straight. Probably as long as the luxurious living at a place like Buena Vista was provided. This soft snap for delinquent women was a joke. Let the State put in a cottage or a ward at the State Home or some other State institution where a cure or incarceration could just as well be provided.

The Governor did right in cutting off separate sustenance and high life for this element of society. It was proven that the cost of keeping an inmate at Buena Vista was three or four times the cost of keeping wards at other institutions. The present hue and cry in the police courts is reformers' propaganda, well staged, and is an indirect plea of the job chaser.

Help the drug addict—yes, if it is possible—but California needs no young ladies' seminary and cultural surroundings to do it. These women and some of their sob-sister uplifters worked the Stephens administration,

but Governor Friend W. Richardson refused to be hoodwinked.

The former Farm property may be ultimately utilized by the Salvation Army or some other privately sustained charity. Whatever work is carried on there then will be no concern of the taxpayer. The State can and probably will lease this beautiful property to some such organization.

SPOKE OF FUTURE OF CARQUINEZ BRIDGE

Messrs. Hartman, Brunner and Thomas, representatives of the American Toll Bridge Company, which is building the new \$4,000,000 Carquinez bridge, addressed the Sonoma Business Men's Association Monday night. The gentlemen outlined the great future which the project would assure and also declared that as 95 per cent of the Golden Gate Ferry stock was owned by the Bridge Company, stockholders would be assured dividends even before the bridge was open for traffic in 1925.

Continuing the work of pushing the bridge to completion as rapidly as possible, the American Toll Bridge Company has just closed a contract with Duncanson-Harrelson Company of San Francisco for the entire sub-structure of the bridge.

The contract, which has been accepted by the contracting firm, calls for the entire sub-structure with everything ready for the fabrication and erection of the steel work. The cost on this construction will run about \$1,250,000 and work is scheduled to start immediately.

This will be possible because everything is in readiness as the result of extensive work that has been going on. Meantime, Duncanson-Harrelson are rushing all preparations and contracts for the structural steel work are being planned in order to meet the date of the bridge opening in 1923.

S. F. WOMAN SUPERVISOR IS TO PARTICIPATE

Miss Margaret Mary Morgan, San Francisco's woman supervisor, is not at all dependent upon her political office for her three squares a day. She is mistress of a large job printing establishment, the employer of a good many men and women, and when she isn't helping to run the business of the municipality she is attending to her own.

For 20 years before she became a supervisor Miss Morgan was connected with a large San Francisco printer. This year she launched out for herself, and her success was so great that in less than six months' time she felt the need for larger quarters. Today she has a model plant and a lot of expensive equipment.

As a little girl in Bath, Maine, Margaret Mary Morgan and Emma Eames were playmates. Emma Eames had a wonderful voice and planned to become a great singer. Margaret Mary Morgan also planned to become a great singer. But she discovered she didn't have a great voice. So she became a printer.

Believing in the woman in business, Miss Morgan has encouraged many a young woman who branched out for herself. She is chairman of the woman's participation committee of the third annual California Industries Exposition to be held in Exposition Auditorium in San Francisco, from November 17 to December 2.

While encouraging others to exhibit, Miss Morgan is herself setting an example. She has announced that she will set up one of her platen presses in the women's division of the exposition and have one of her young women employees operate it during the sixteen days of the big show.

MRS. AGNES DENNY GRANTED A PARTIAL WILL DISTRIBUTION

Mrs. Agnes Denny, formerly Mrs. Calus Ryland, and devisee under Ryland's will, was granted an order for partial distribution of the \$88,000 estate. In granting the order, Judge Campbell ruled that only \$65,000 could be distributed on account of the fact that two claims against the estate have as yet not been settled, those of the First National Bank of Racine, Wisconsin, and the American Trades and Savings Bank, aggregating \$14,000. The remainder of the estate, after the \$65,000 is distributed, must remain in suspension until these claims are adjusted.

MRS. J. P. McDONNELL IS ON COMMITTEE

(From Sebastopol Times)

One of the most important steps taken by the Grammar School Parent-Teachers' Association is that for the beautification of the school grounds.

Mrs. J. P. McDonnell has been appointed as chairman of the committee for this work by Mrs. J. H. E. Everett, president of the Association. Mrs. McDonnell will have as co-workers Mrs. C. H. King, and Mrs. J. C. Bennett. All members of this committee are interested in landscape gardening and great results are assured from their work. Mrs. McDonnell has been in communication with Superintendent McLaren of Golden Gate Park, San Francisco, and it is probable he will aid the committee. Native shrubs will be used entirely in the beautification work.

The next meeting of the Grammar School P. T. A. will be held November 15th, during Fathers' and Sons' Week. George Crowe of Sonoma will give the address of the evening and refreshments and a social time will be added features.

Thence it is whirled through the middle states on to New York City, delivering its California message and stopping from one to 48 hours en route.

From Gotham it travels south to Philadelphia, Washington, and on down the Atlantic coast through the various cities to Atlanta and Birmingham; thence by way of Montgomery and Mobile to New Orleans; and thence to Dallas, Fort Worth, San Antonio and across Texas to El Paso, pulling up in Los Angeles on December 19th, and on to San Francisco the next day.

MORE AUTOS, BUT LESS EXPENSE

The growth of the automobile industry in the State of California is reflected in figures prepared by Will H. Marsh, chief of the Division of Motor Vehicles for the month of September.

The 1923 registrations for that month amounted to 62,289 against 52,130 in the same month one year ago. Fees collected by the department for September of this year amounted to \$164,267, against \$138,267.25 last year.

During the period of the past five months in comparison with the same months of 1922 the department head is able to show a decrease in payroll costs of more than \$15,000 during which time an average increase of 30 per cent in registrations and money is shown.

HIGH SCHOOL NOTES

This week a Junior Farm Bureau
was formed with the aid of Mr. Sten-
quist. Last year's and this year's Ag-
ricultural classes combined, forming
the present organization of about 20
members. The officers of the Bureau
are Sam Steiman, president; Barrick
Wright, vice president; Chester Horn,
secretary and Mr. Stenquist, treas-
urer.

A case of tonsillitis has kept Miss
Byrne home for several days. Her
classes have been reporting in the au-
ditorium. "Although we regret that
Miss Byrne cannot be with us, we find
shooting goals more enjoyable than
making biscuits," says the cooking
class.

The high school has certainly a re-
markable faculty this year. They have
drummed the lessons into the heads of
the Freshmen so well that the scrubs
actually remembered more than half
of them after the past week's vacation.
"Ray for the teachers! 'Ray for the
Frosh!"

The tennis game that was announc-
ed to have taken place today has been
called off because Santa Rosa for-
feited.

The drawing class has been making
a collection of tin boxes to enamel
and decorate. The results make de-
lightful Christmas gifts.

"We won, we won!" It's only the
Physical Ed. girls finishing a game
of basket ball.

Some one soiled Armand Franque-
lin's white sweater. Keep away from
him, folks, the Frenchman's blood is
up!

Mr. Campbell has just received two
new sets of music books for the or-
chestra. Watch the orchestra go now.

Students come and students go, but
the percentage is in favor of the com-
ing. Three students have moved a-
way. Practically all the students who
were out picking grapes have returned.

The parents and teachers at the last
meeting of the P. T. A. discussed mu-
sic week and education week, pro-
nounced by the president to start on
November 18th. There was also in-
teresting talks on the opportunity of
motion pictures in the high school.
After the meeting the members re-
paired to the auditorium where they
sang folk songs and were entertained
by a motion picture of the Hawaiian
Islands.

The average daily attendance for the
second month is 117 per cent higher
than five years ago.

Healdsburg was defeated in a tennis
match last Saturday by our tennis
stars, Teddy Anthenian and Pierre
Rouque. Anthenian walked away
with the first singles with a score of
6-0, 6-3. The score in the doubles
was 6-2, 6-8, 6-1.

Monday the basket ball recruits
started to practice for the season with
Mr. Stenquist as coach. There is
some very good material from which
to pick and a good team is expected
to be turned out.

Miss Florence Murphy returned on
Sunday from the teachers' convention
in Oakland. While in the bay cities
Miss Murphy attended a Harry Lau-
der performance and says the Scotch
comedian is a real artist.

LOOK at the way Goodyear Tire prices have been kept consistently lower than the average for all commodities. Then think of the improvements represented by that finest of all Goodyears, the new Goodyear Cord. Despite this, prices are 37% lower now than in 1920, and 30% lower than in 1914. This is the time to buy Goodyears.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cord with the bonded All-Weather Tread and back them up with standard Goodyear Service.
